

Flying at Matterley Bowl requires AT LEAST two (2) people to be present at all times whilst flying operations are active. At least one Person in Charge (PIC) must be on the ground throughout to ensure the Skype call forwarding facility is continually monitored.

A Telegram Group has been set up to help co-ordinate efforts for this essential Daily Check. This is the invite link:

https://t.me/joinchat/AdYJ5A86hmY3esk_CWF4lQ

Before flying can commence, the following steps must be taken:

Preferably the Evening before:

1. Use the dedicated Telegram Group to see if anyone else intends visiting the site.
2. If not already done, complete the Daily Check with the farmer - can we fly?

Send a text message to Mr. Bruce:

"Sky Surfers wish to fly Matterley Bowl tomorrow - please call or text back if not OK."

If no reply, assume OK.

3. Update the Telegram Group accordingly.

On the day:

4. Contact SATC Watch Manager (WM)/Solent Controller On Duty (SCOD to request permission to activate CHB in Southampton CTR airspace.

Voice request to WM/SCOD:

"The Sky Surfing Club request permission to activate the Cheesefoot Head Box for hang gliding and paragliding, please."

If consent is given, allow 15 mins for the CHB to be activated

5. Update the Telegram Group accordingly.

If all is good to go:

6. Update the Skype call forwarding facility with your mobile number, (maximum of 3 x numbers).
7. Ensure you have your signalling whistle.
8. Once on-site, retrieve red flags and erect windsock. (The flags and windsock are stored in a tube, positioned in the south-west corner of the copse close to launch.)
9. **Ensure at least 1 x call forward mobile is monitored on the ground at all times.**

If contacted by SATC to cease operations:

10. Use whistles and flags to signal pilots in the air - LAND IMMEDIATELY
When everyone is down, inform SATC WM/SCOD.

At the end of the days' flying:

11. Inform SATC WM/SCOD and return red flags and windsock.
12. Update Skype call forwarding back to Voicemail.
