Park Hill	SU 684 225	50.998 -1.026	mixing newer slowly
Whitewool	SU 650 204	50.979 -1.076	alert realm turned

1 Remove any danger to yourself and then to the casualty and others. Do not become a second casualty!

2 Administer first aid. Do not move anyone with potential back or head injury unless they have stopped breathing or are in immediate danger.

3 Call the emergency services (999). State "Fall from height" and if access is difficult: "In a remote Location". Give What3Words for location.

4 If a helicopter is inbound, alert all airborne pilots to land quickly. The use of loud whistles can be effective. Secure all equipment, bundle up wings so they cannot inflate.

5 Signal to helicopter to indicate casualty position. Stand with arms in a static Y shape, back to the wind. DO NOT WAVE.

6 Identify witnesses. Take names and contact details Please report all incidents to [safety@skysurfingclub.co.uk](mailto:safety@skysurfingclub.co.uk)
